RESPONSE TO RESTRICTION REQUIREMENT

Sir:

In response to the June 30, 2004 Restriction Requirement, Applicants hereby elect Group I, claims 1-58, and 217-220 drawn to secure transactions including authentication, with traverse.

Applicants respectfully submit that the subject matter of all claims 1-220 is sufficiently related that a thorough search for the subject matter of any one group of claims would encompass a search for the subject matter of the remaining claims. Thus, Applicants respectfully submit that the search and examination of the entire application should be made without serious burden. See M.P.E.P. §803, which states that "if the search and examination of the entire application can be made without serious burden, the Examiner must examine it on the merits" (emphasis added). Applicants respectfully submit that this policy should apply in the above-identified application in order to avoid unnecessary delay and expense to the Applicants and duplicative examination by the Patent Office.

Respectfully submitted,

Date: July 20, 2004
